

# BTE EMPLOYMENT TESTING

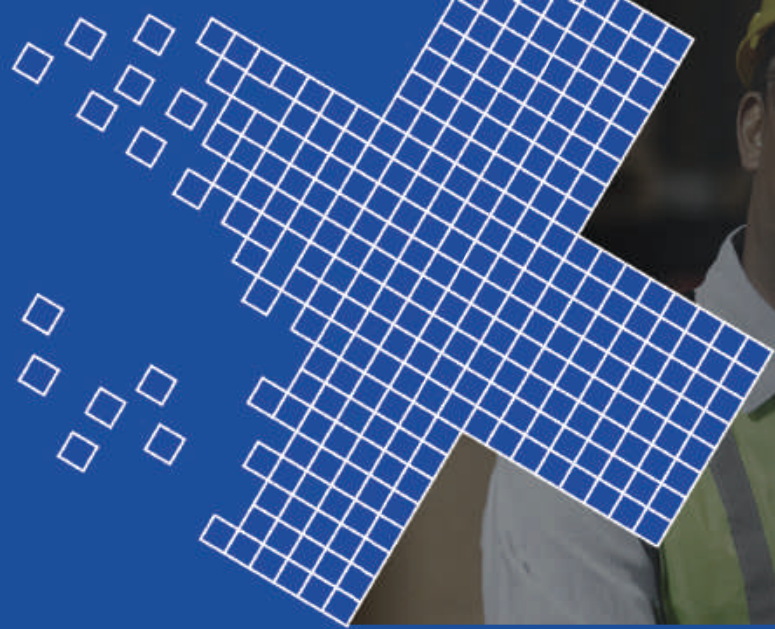

Briotix Health's BTE Employment Testing delivers the most reliable, objective, legally-compliant physical abilities testing for screening job candidates. Our solutions are scalable and offered throughout the United States, so no matter the size or location of your need, we've got you covered.

## **Prevent Workplace Injuries from the Beginning**

Our BTE Employment Testing solutions are tailored to the specific needs of your company. Our solutions help clients ensure job candidates can physically handle the specific physical requirements of their job to safeguard companies from hiring their next injuries.

## **Improve Return-to-Work Outcomes**

The success an employer has helping an employee return to work and stay at work is largely dependent on early and skilled intervention and innovative accommodation. We partner with companies to help assess workers and proceed with objective, informed return-to-work options to ensure the best outcome for the worker and company.

“There is no doubt the BTE process was integral in reducing all of our measurements. With BTE Employment Testing services, we recorded our first year on record without a single injury from an employee with less than three years of service. This is really where the rubber meets the road for us. We want to ensure that employees are not getting injured. That’s a huge win.”
